

# Tax Tables, Rates and Forms

2023

---

## **NOTE TO STUDENTS:**

Resources contained in this document are required to complete the 2023 National Payroll Institute's Payroll Compliance Practitioner (PCP) courses, including examinations.

### **Note:**

Only the Alberta and the Québec tax tables are included in the material. Since the method and format used to determine federal and provincial income tax using the tax tables is the same in all jurisdictions, except Québec, only one non-Québec jurisdiction (i.e., Alberta) is provided for illustration purposes. The format used in the Québec tax tables, and the method used to determine Québec provincial income tax, differs from the other jurisdictions, so the Québec tax tables provide you with exposure and experience in that jurisdiction.

The PCP Certification program is national, and the expectation is that you will be able to determine income tax withholdings, regardless of the employee's province of employment.

### **Note:**

The calendar and tax tables used in the course material are generic and not specific to any particular year. The PCP program is designed so that students understand the theory required to process payroll accurately, on time, and in accordance with legislative requirements. The calendar and tax tables used in the material and the assessment tools are consistent for every course offering, regardless of the course start and end dates.
